TRACK MEET.

Illinois College Wins Decided Victory Over Carthage on Athletic Field Friday

The dual meet between Illinois college and Carthage college was held on the new athletic field of Illinois college Friday afternoon in the presence of a large and enthusiastic crowd of spectators. The weather was ideal and the track in prime condition. The events were pulled off without a hitch and the local students are deserving of great credit for the excellent manner in which the meet was conducted. The best of feeling existed between the contestants and there was a noticeable absence of wranglings and disputes.

While the visitors were defeated by a large margin, the big lead of the local students was not secured until near the close of the events, and this fact made the interest keen throughout the afternoon. First place in any event counted five points; second, three points, and third, one point. Of the fourteen events Illinois won ten firsts and Carthage four. Of total points Illinois won seventy-three and Carthage fifty-three.

The visitors depended largely upon the work of Johnson, who was entered in nine events, and won two firsts, a second and a third. For Illinois the honors were quite evenly distributed and it was evidenced by the meet that the college has some splendid material, if properly developed. Carthage is undoubtedly one of the easiest and prettiest runners the school has had for years. Not since the days of "Doc" Darling, '98, has the school had a more certain and dependable runner. Ocar is also one of the all round athletes on the hill, but he was handicapped early in the afternoon by a slight injury received in one of the jumps.

The mile run was one of the poorest exhibitions of the afternoon, from a record standpoint, but the spurt on the last fifth made the event interesting. The local runners evidently hadn't have set the pace, which they failed to do. Although not pushed, Carthage clipped two-fifths of a second off the quarter mile record and won handily. The meet was a distinct success in every particular. The athletic field was surrounded by a high canvas fence and entrance to the field was between Crampton hall and the gymnasium.

The officials were:
Referee—T. P. Carter.
Clerk—E. T. Brown.
Starter—Percy Owen.
Timers—C. L. Willis and R. O. Stoores.

Judges—J. N. Wylder, H. S. Friedman and W. Bowen.
Announcer—W. J. Simpson.

The events and winners were:
120-yards high hurdles—First, Sinclair, I. C.; second, Brockhouse, I. C.; third, Sunberg, Carthage. Time, 0:18.
Shot put—First, Van Gundy, I. C.; second, Johnson, Carthage; third, Eilers, I. C. Distance, 34 feet 3/4 inches.
100-yards dash—First, Ocar, I. C.; second, Williams, Carthage; third, Fontz, I. C. Time, 0:10 2/5.

Hammer throw—First, Johnson, Carthage; second, W. McMillan, Carthage; third, Daekels, I. C. Distance, 110 feet.
Mile run—First, E. McMillan, Carthage; second, Graham, Carthage; third, Thompson, I. C. Time, 3:49 2/5.

50-yards dash—First, Johnson, Carthage; second, Ocar, I. C.; third, Lashmet, I. C. Time, 0:05 4/5.

Broad jump—First, McKown, I. C.; second, Ocar, I. C.; third, Johnson, Carthage.

thage. Distance, 19 feet 3/4 inches.
440-yards run—First, Carriel, I. C.; second, Fontz, I. C.; third, McCormick, Carthage. Time, 0:55; previous record, 0:55 2/5.
High jump—First, Harmon, I. C.; second, Johnson, Carthage; third, Williams, Carthage. Height, 60 inches.
220-yards low hurdles—First, Lashmet, I. C.; second, Sunberg, Carthage; third, Baird, Carthage. Time, 0:28.

Discus throw—First, W. Harmon, I. C.; second, Johnson, Carthage; third, Baird, Carthage. Distance, 98 feet 10 inches.
880-yards run—First, Carriel, I. C.; second, E. McMillan, Carthage; third, Helm, Carthage. Time, 2:31 4/5.

Pole vault—First, Williams, Carthage; second, Osborne, I. C.; third, Kirby, I. C. Height, 8 feet 8 3/4 inches.
220-yards dash—First, Lashmet, I. C.; second, McKown, I. C.; third, Williams, Carthage. Time, 0:24.

INVENTS CORN PLANTER.

Modesto, April 29.—Andy Dougherty, of this village, has invented a corn planter which requires no wire whatever to check the corn. The machine was put together last week by an expert machinist and has been taken out of the shop and put into use.

The planter dropped the corn exactly as it was designed to do. It checks the corn both ways and plants in straight and parallel rows with an equal distance between drops.

THE GOOD OF MEDICINE.

People insisting that medicine does no good, have one stubborn fact to contend with, that is, the people who do believe are greatly in the majority. We have been so fortunate during the past twenty years as to convince thousands of sufferers with weak, watery blood, who had all the symptoms of a general breaking down of the system, that one medicine at least does good. Nervous and unsteady people, weak, fleshless people, pimple or sallow people can have strong, steady nerves and solid, healthy flesh by the use of Dr. Gunn's Blood and Nerve Tonic. A tablet to take at meal time, it turns the food you eat into rich, red blood, making solid flesh at the rate of 1 to 3 pounds per week. Sold by all druggists for 75c per box, or 3 boxes for \$2. This medicine saves doctor bills and insures health, giving the very best treatment possible. Leo P. Allcott, druggist.

PAYS UNION \$1,000 FINE.

St. Louis, April 29.—William Weil, official bandmaster of the world's fair, who recently was expelled by the musicians' union, has paid a fine of \$1,000 and after agreeing to obey the union rules has been reinstated as a member of the local union. Mr. Weil also agreed to employ only St. Louis musicians in his world's fair band.

AN UNUSUAL WEDDING.

Bloomington, April 29.—Shortly after receiving \$4,000 from the Big Four railway in payment of damages for the loss of her husband, killed in the Menert wreck, Mrs. Anne Herman, aged 69, accepted a proposal of marriage from Charles Timmann, age 24. Yesterday they were married. A conservator was immediately requested of the court.

MEET HERE IN JULY

Brainard District Medical Society Decides on Jacksonville

Lincoln, April 29.—At the twenty-eighth annual meeting of the Brainard District Medical society, held in the city hall yesterday, the following officers for the ensuing year were elected:

President—Irving Newcomer, of Petersburg.

First vice president—P. H. Oyler, of Mt. Pleasant.

Second vice president—F. P. Norbury, of Jacksonville.

Third vice president—A. C. Stone, of Mason City.

Secretary—H. S. Oyler, of Lincoln.

Treasurer—C. C. Reed, of Lincoln.

The society will meet at Jacksonville on the fourth Thursday in July.

Following the meeting of the Brainard society a meeting of the Logan County Medical society was held. The following officers were elected:

President—J. L. Lowrie, Lincoln.

Vice president—F. L. Curtis, Elkhart.

Second vice president—M. Lee, Atlanta.

Secretary—H. S. Oyler, Atlanta.

Treasurer—W. H. Kirby, Chestnut.

SCIOATIC RHEUMATISM CURED.

"I have been subject to sciatic rheumatism for years," says E. H. Waldron, of Wilton Junction, Iowa. "My joints were stiff and gave me much pain and discomfort. My joints would crack when I straightened up. I used Chamberlain's Pain Balm and have been thoroughly cured. Have not had a pain or ache from the old trouble for many months. It is certainly a most wonderful liniment." For sale by all leading druggists.

MUSIC FOR WORLD'S FAIR.

Music people and all who appreciate good music may thank the world's fair for three notable compositions, written upon the invitation of the exposition management. These are, the "Hymn of the West," by the most distinguished living American poet, Edmund Clarence Steadman, the music for which was written by Prof. John K. Zime, who is at the head of the music department of Harvard university; "Louisiana," a march, by Frank Vanderstegen, leader of the Cincinnati orchestra; a waltz, "Along the Eliza," by Henry K. Hadley, of New York, who has won his laurels long before this as a writer of operatic and other musical compositions. This music will be heard publicly for the first time upon the opening of the exposition, Saturday, April 30, and frequently the latter in the musical programs of the greatest of world's fairs. These are the only official compositions and are published under the direction of the bureau of music of the world's fair.

Thirty thousand dollars will be given in prizes for the best bands at a tournament to be held during the exposition. All through the world's fair the musical feature will be prominent. The most famous bands of the world are under contract to participate during considerable periods. Among these are La Grande Republique band of France, the Royal Grenadier band of England, the Mexican National band, Sousa's band and others.

SAVED BRIDGE.

The Illinois Central Interurban company has succeeded in saving the false work span of their bridge at Riverston, which was washed away at the last high water and was recently put back, although it required considerable effort to keep it from going again. The river yesterday afternoon at 3 o'clock became stationary and since that time it has been going down. It was sixteen inches higher this time than it was when the span was washed away a few weeks ago.—Springfield News.

SERIOUS STOMACH TROUBLE CURED.

I was troubled with a distress in my stomach, sour stomach and vomiting spells, and can truthfully say that Chamberlain's Stomach and Liver Tablets cured me.—Mrs. T. V. Williams, Laingsburg, Mich. These tablets are guaranteed to cure every case of stomach trouble of this character. For sale by all leading druggists.

A RECORD BREAKER.

John Byrns, of this city, has kept a record of snows that have fallen here during the past winter. The number is thirty-two, distributed as follows: Nov. 13, 24 and 29; Dec. 1, 8, 13 and 25; Jan. 1, 10, 11, 12, 23, 24, 25, 28, 29 and 30; Feb. 1, 3, 7, 9, 14, 17 and 20; March 1, 13, 14 and 26; April 8, 9 and 13.

In addition to the above it may be noted that the first severe freeze was on the night of Nov. 19 and that up to within a little more than a week ago there were not over three or four nights in the interval when ice did not form. From the beginning of winter, about the middle of November, during which time, with scarcely an exception, the thermometer indicated some time in the twenty-four hours 32 degrees or below. This is unprecedented in this latitude and marks the past winter as the longest and coldest on record.—Mt. Sterling Democrat-Message.

FORTNIGHTLY.

The Fortnightly will meet this afternoon at 2:30 o'clock with Mrs. William Tulloch Wilson, on West State street.

GRIP CONVALESCENCE

There's nothing better than Scott's Emulsion after the grip. When the fever is gone the body is left weak and exhausted; the nervous system is completely run down and vitality is low.

Two things to do: give strength to the whole body and new force to the nerves. Scott's Emulsion will do it; contains just what the worn-out system needs.

Rich blood, healthy flesh, resistive force, more and better nourishment are what Scott's Emulsion supplies to the convalescent.

We'll send you a sample free upon request. SCOTT & BOWNE, 400 Pearl Street, New York

HE GOT THE PRIZE.

Story Told of a Collector of Coupons Bearing Premium.

Edward E. Lee of Baltimore, manager of a well known wickerware house, is a dead after coupon collecting. His friends tell this story on him:

He had been collecting all kinds of tags and coupons bearing premiums for some time when he one day noticed an advertisement of a New Jersey firm that upon receipt of fifteen of their tags they would forward one chance for a series of prizes, the first being a horse and runabout. Mr. Lee began industriously to get all the tags he could find until he had the requisite number, which he forwarded. A few days later he was notified that he had won the first prize. Immediately following this letter came a tiny rocking horse. He sat down and wrote a sarcastic letter to the firm. "I beg to acknowledge receipt of the horse," he wrote, "but you failed to inclose the runabout." In an early mail he received this letter:

Dear Sir—We have your letter acknowledging receipt of the horse. As for the runabout, go chase yourself. Yours truly, —Lippincott's Magazine.

A Japanese War Story.

Lafadio Hearn, the American writer resident in Japan, said in a recent letter apropos of the Japanese war:

"My friends here have no fear of Russia. The thought of war excites them to pleasant laughter. Over our sushi the other night your old acquaintance Mutsu told a Japanese war story that you may think interesting.

"The third son of a samurai (he said) boasted of his prowess.

"What deeds did you do in the last battle?" asked his friends.

"I went up boldly to one of the enemy," the young man replied, "and I cut off his feet."

"His feet?" said the friends of the samurai's son. "Why his feet? Why did you not cut off his head?"

"Oh, said the youth, 'that was off already.'"—New York Globe.

THE POWER OF STEAM.

Many May See But It Takes Genius to Realize.

When James Watt saw the steam causing the Kettle lid to jump up and down he said "There must be power in that steam that it can lift such a weight."

There was.

Millions prior to him had seen the same phenomenon and regarded it as an unexplained mystery.

Recent scientific research has put its finger on the "cause" of Dandruff, Falling Hair, and consequent Baldness, and has unearthed a tiny germ which cuts the life from the roots of human hair.

Newbro's Herpicide destroys this germ and consequently restores the hair to its natural state.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

You Can Be Cured.

No. 11 Cedar Terrace, Hor Shingus, Ark., April 28, 1903.

When I was first married I found that my strength and health were gradually diminishing. I became nervous and irritable, and was in bed a week and sometimes ten days of every month, and had intense bearing down pains.

My husband had the best physician for me and I used his medicine for nearly four months, but I gradually grew worse, had less strength, and finally, I was unable to leave my bed at all.

A friend who was calling on me brought me a bottle of Wine of Cardui and was so loud in its praise that I told her that I would take it to please her.

I was surprised and pleased that before I had used the bottle I really felt better, so I kept on using it. Eight bottles brought back my lost health and strength, and I have not had a sick day in six months.

ETNA FINEGAN

TAMMULSA, ST. ANDREW'S SOCIETY.

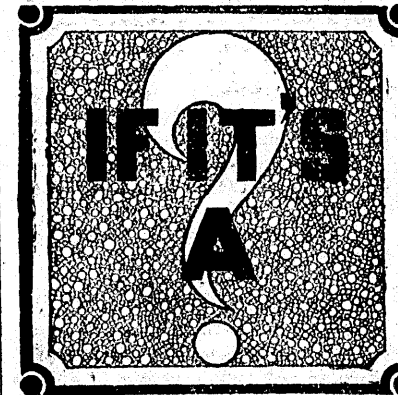

WINE OF CARDUI

Mrs. Finnegan had little hope of relief because she knew that every time she had those spells of menstrual suffering with attendant bearing down pains she was weaker. And every month the pain was growing more severe.

But Mrs. Finnegan was cured by Wine of Cardui. She is now so well that there are few women who would not be glad to have the health she has. And any woman who has those dreaded bearing down pains can have the same relief.

You can be free from menstrual irregularities if you take this pure vegetable wine. Why don't you take it when you see what it has done for others? Secure a bottle of Wine of Cardui today.

Your druggist has \$1.00 bottles.

THE "STANDARD"

Safety Single Generator

Gasoline Stove

The Standard Safety is an entirely new stove, which for safety, economy, convenience and general utility, is superior to any other stove.

It is a single generator type with a powerful generator which has been proven by years of experience to be the most perfect burner of its kind. To this burner is added a safety device which prevents any gasoline entering the burner until generated into gas, so that all possibility of leakage is overcome, and should the generator be closed and the other burners left open, no flooding can occur. The stove has a water trap which automatically separates any water or heavy oils from the gasoline. Different sizes and styles kept in stock.

Why Fremont Unfermented Grape Juice is Nutritious

Because it's Good, Pure and Unfermented.

FREMONT GRAPE JUICE is not the thing to drink if you must become intoxicated. Thousands of physicians prescribe it in their practice regularly because they have found the FREMONT brand of Grape Juice to be absolutely the life of the grape and nothing else. Alcoholic juices and beverages are temporary stimulants at best, while with FREMONT GRAPE JUICE the good effects are permanent and lasting.

For Sacramental uses, Fremont Grape Juice is certainly the safest, purest and best that can be procured for this purpose.

GOOD CROPS IN CALIFORNIA.

While the middle west is experiencing cold weather, frosts, snow storms, etc., which kill early fruits and vegetables, California and Oregon are being blessed with copious rains, which insure very heavy crops. The most serious problem in those states is sufficient labor to gather the harvest. There is work for man, woman and child, at good wages. Low rates in effect to and including April 30. Write J. H. Lathrop, 903 Olive street, St. Louis, for particulars.

TWENTIETH DISTRICT.

The twentieth congressional district is composed of ten counties with a total of forty-nine delegates to the Republican state convention as follows: Morgan 11, Pike 8, Mason 5, Cass 5, Greene 5, Scott 3, Menard 4, Brown 2, Calhoun 2, Jersey 4, total 49. Conventions have been held in all the above named counties. Governor Yates has carried eight counties as follows: Morgan 11, Scott 3, Calhoun 2, Mason (primaries) 5, Cass 5, Greene 5, Brown 2, Pike 8, total 41. Thus giving the governor's friends a vote majority and complete control of this congressional district. The thirtieth senatorial district is composed of six counties with a total of thirty delegates to the state convention as follows: Tazewell 10, Mason 5, Cass 5, Schuyler 4, Menard 4, Brown 2, total 30. In this senatorial district Governor Yates has carried the following counties: Tazewell 10, Mason 5, Cass 5, Schuyler 4, Brown 2, total 26.

INTERURBAN STATIONS.

Decatur, April 29.—It is rather early to locate and name the stations on the Decatur, Springfield & St. Louis interurban line, but the management is already casting their eye over the line for the most desirable points for stations, and some have been decided upon.

The first station out of Decatur will certainly be Fairview Park, where the line leaves the local street car line at the southeast corner of the park.

Stevens creek will doubtless be the next regular stop. The point where the traction line crosses the creek is about two and one-half miles from the transfer house, and for some reason would be a desirable place for a station. The creek itself affords some attractions in summer and winter and here the interurban line approaches to within a few rods of the main gravel road west.

Sunrise is suggested as the third station out. This is the first highway crossing west of the city and is about three and a half miles from the transfer house. At this point the traction line parallels the Wabash road and is but three or four rods away. The Sunrise school house is a short distance north of the Wabash crossing.

Wyckles is the first station west on the Wabash and will be an interurban station. Wyckles is four and one-tenth miles from Decatur station on the Wabash and about four miles from the transfer house by the interurban.

Other stations west of here will coincide with the stations on the Wabash, and there will be some intermediate stations.

HORSESHOERS MET.

The Master Horseshoers' association, No. 359, met Friday evening and elected the following officers: President—W. H. Anderson. Vice president—G. V. Skinner. Secretary—James Seaver. Treasurer—Fred McDougal. Sergeant-at-arms—Harry Hopper. Corresponding secretary—John Hall.

The association is in good shape and everything is moving smoothly.

CHINA RUSH.

A china rush for Miss Ethel Hayden, who is soon to be married, was given by the members of the Clio Circle Friday evening at the home of the Misses Rataichak on South Diamond street. A very enjoyable evening was spent socially and with various amusements.

The house was tastefully decorated with pink and white carnations and presented a very beautiful appearance. Delicious refreshments were served during the evening, the cake being cut in the shape of hearts. Miss Eleanor Thompson read an original poem on the "parcel rush" given in Miss Hayden's honor last Tuesday evening. It was a clever verse and called forth a great deal of applause.

Don't be stingy with the boys. If you are, they will hate you and finally leave the farm for city life. Be reasonable.

ADAMS FOR YATES.

Governor Wins Sweeping Victory in Primaries held Friday—Delegation Numbers 20 and County Is First on Roll

Call.

Governor Yates won a sweeping victory in the Adams county primaries held Friday, and as a result he will have at least 204 out of the 321 delegates who will sit in the county convention Monday, with the probability that this number will reach the 300 mark.

The victory in Adams county means much. The number of delegates is not only large, but the county is the first on the roll call in the state convention, and its delegation is always a coveted prize with candidates for state office. The victory also indicates an unbounded confidence in the ultimate triumph of Governor Yates before the state convention on the part of one of the largest counties in the state, and the unqualified endorsement given Friday will be widespread in its influence on uninstructed delegations.

The Yates forces were led by Perry Ellis, of the Quincy Whig; Capt. William Somerville, of the Soldiers' home, and T. J. Clark. Dr. Joseph Robbins and James Walsh were the active Lowden adherents and failed to make even a respectable showing for their candidate.

The primaries were held under the caucus system and the county primaries were held during the day and the city primaries at night.

The contests throughout the city and county were carried on in a remarkably quiet and peaceable manner, considering the activity of the Lowden and Yates forces, and there was no disturbance of any kind reported, except in the Third ward.

The Yates forces were victorious in all townships in the county, except Mendon and a portion of Fall Creek and Payson. In the city the governor carried every ward except the Sixth and here there is a contesting delegation.

The county convention will be held Monday and the state delegation numbers twenty.

Ellis and their friends are cordially invited to visit the new Illinois Millinery House, where they will receive every courtesy and be most heartily welcomed.

He Knew How to Cure It.

The late Justice Dykman once had before him a respectable looking man who was charged with a theft of jewelry. The man pleaded guilty, but it was urged that there were extenuating circumstances. The defense introduced a medical expert, who swore that the prisoner suffered from kleptomania. "I know the disease," said his honor. "I know the disease, and I am here to cure it."—New York Times.

TROLLEY GOSSIP.

Macoupin County Argus: The Springfield papers have frequent reports of the way the work of construction is being pushed on the McKinley line. Last week they said there were 120 teams and 477 men at work between Springfield and Carlinville and they had advertised for more to put on this week. Of course the heavy rains since have caused some delay, but the work is being put forward fast. Probably the contractors are doing the hurrying.

A surveying party or two are reported in the field or flooded creeks to the south and are working north from Edwardsville, or were last week. All the pointers indicate the continuance of the original purpose to go to Edwardsville by the way of Bunker Hill. There may be some temptation to follow the C. & A. to Alton, but it is not likely to prevail unless there is special inducement not now visible.

There is no reason to anticipate that the line will be operation from Springfield to Carlinville before August. There is growing interest to know whether the C. & A. is going to have a scrap with McKinley in getting its line onto First West street in town. It was stated in the Argus some time ago that the C. & A. had found it necessary to build a crude track on each side of the main line at the exact point where the trolley would have to cross its line. No explanation has ever been given by the C. & A. people as to the need of these sidetracks—they don't say a word about this, although voluble on other topics. The C. & A. news man at Bloomington added to this that these sidetracks were to be covered with ancient coal cars piled high with coal and things. This may be for ballast to hold the tracks in place when the electric cars come whizzing down.

Some paper has said recently that the C. & A. has refused the trolley a grade crossing at that place, and intimated that it might build a bridge. That might be done, but it would be expensive and awkward.

The estimated cost of raising broom corn in Illinois, Missouri and Oklahoma is from \$25 to \$35 per ton. It sold last year from \$45 to \$55 per ton. A trust now controls most of the broom corn acreage.

SELECTIONS

THE SATIATED AGE.

Hard Times For Clergymen, Teachers and Providers of Pleasure.

Clergymen in great numbers remark in these days upon the difficulty of interesting audiences, much more of drawing audiences. In New York a late census indicates the sparse ratio of population attending divine worship both in Roman Catholic and in Protestant churches. Religion is no less fundamental or needful, but the attention of people seems harder to gain. Sensation and advertisement attempt the problem, but the desired results do not seem to follow. Strange and faraway subjects do not startle the people, and many clergymen droop in enthusiasm and take on pessimistic views. The same city goes up from the theatrical managers along Broadway, who draw the small audiences and the lack of appreciative response.

Newspapers by the million tell the world's news, coupled with fiction and philosophy, often of a high order, often exaggerated rubbish. Flashing headlines no longer make readers shudder. Great accidents and foul murders seem no longer to stir them as of yore. It seems to be a satiated age, well fed, well instructed in matters as they go, but difficult to interest. Formerly the traveled man was the joy of his friends. Now all seem to have traveled, and few will listen. Formerly the college graduate was a center of interest and influence. Now college men are legion in every community. Do they command as much respect? Formerly the boy looked forward to college days and wondered at the mystic life he hoped to live. Now that is all lived and experienced in the preparatory school, and the boy goes solemnly forth to the university with no smile upon his face, a sober youth hard to interest. He also belongs to the satiated age, and this makes it more difficult for those who are called upon to handle him. In short, in every avenue of life knowledge has been spread almost to saturation.

However, though this erudition or experience be superficial rather than fundamental, we can gain at least some comfort when we consider that we are probably part of the age and are quite as difficult to interest as those whom we attempt to handle.—Century.

The Fatal Hour.

Much comment has been excited by the circumstance that out of the recent wreck of the Darlington hotel in New York there emerged unscathed some men who had seemed to be exposed to a danger equaling that of the victims. Yet there was nothing that does not constitute a feature of almost every catastrophe in which life is lost.

A resident of New York passing through Omaha and having a few minutes to spare once bethought him to call on a friend. Reaching the office he found the friend absent and for half an hour. As the visitor was at his friend's desk penning an explanatory line the wall of a neighboring building collapsed, and a toppling chimney killed him where he sat.

The Omaha man had occupied a chair at that desk for years during business hours. The New Yorker had never been in Omaha before.

Revolution of the Orient.

Almost everywhere in the far east the old days of cheap living are passing away. Steamers, railways, telegraphs, newspapers, labor saving machinery and the production of western ideas are slowly but surely revolutionizing the orient. Shanghai, which formerly had no market beyond a radius of a few dozen miles from the wharves, can now be shipped by railway and steamship to any part of the world, and in consequence every Chinese buyer has to pay more for it. In like manner new facilities for export have doubled, trebled and in some cases quadrupled the price of rice in China, Siam and Japan.

Parks in Colorado Springs.

Colorado Springs has the finest system of public parks in the west. They include Acacia square, Dorchester park, Alamo place and Antlers park and eight smaller parks, all in the central part of the city—Stratton park and North Cheyenne canyon, at the base of Cheyenne mountain, Palmer park, a picturesque tract of rugged bluffs north of the city, and Monument park, on the west of the city, now being improved at a cost of half a million dollars through the generosity of General William J. Palmer, founder of the city.

Developing Her "Ego."

The modern girl talks glibly about her "personality" and spends a great deal of time, she will tell you, in "developing" it. Though she has only the vaguest ideas what is meant by the process. "What are you going to do now you are grown up?" asked an elderly maiden aunt of a niece who had just emerged from the schoolroom. "I am going to cultivate my ego," was the composed reply of the debutante.—"A Countess" in London Outlook.

Mark Twain on Poker.

In Florence lately one of several Italian ladies who were entertaining Mark Twain asked what was the American national game. "Poker," he responded. When she laughingly protested that he was facetious he gravely reiterated his statement and added: "Madam, to the game of poker the American people owe the most valuable lesson a nation can learn—never give up, even after you have lost your last chance."

HAD A GOOD MEMORY.

Congressman Gibson of Tennessee was in the commissary department of the Union army in civil war days. In December, 1863, he was ordered from Washington to a point in Maryland. The only way to get there was by wagon; so he drove two army mules the entire distance. The animals died as a result of their journey, and Gibson was court-martialed by order of General Birney on the charge of overdriving them. He cleared himself with difficulty. A few evenings ago the congressman attended an entertainment given in a Lutheran church in Washington, delivering a short address. After he had concluded an aged, gray bearded man approached him and said, "Gibson, I still maintain you overdrove those mules." The gray bearded man was General Birney, whom Gibson had not seen since the court martial episode of 1863.

Muscle Rays.

There would appear to be no longer any doubt that rays are given off by active muscle and nerves. Dr. Hugh Walsham and Mr. Leslie Miller point out that experiments are remarkably easy to perform and are absolutely convincing as to the actual existence of the rays. The fluorescent screens are prepared with hexagonal zinc blend, which is placed in the form of a very thin film on thin paper, goldbeater's skin or thin celluloid. The screen is excited and the fluorescent light allowed to die away until it has reached the steady stage. At this point if a muscle in a state of contraction be placed underneath the fluorescent screen it will be seen to brighten perceptibly.—London Lancet.

Traveling Men's Expenses.

The change in the method of operating hotels from the American to the European plan has increased the expenses of traveling men 22½ per cent. "I have made the test, and I know that such is the case," remarked a man who is at the head of a large number of traveling men. "The increase is startling. Any one will notice it if he stops to think. Traveling men pay as much for their rooms alone as they formerly paid for their rooms and meals in many instances, and the charge is invariably higher, just 22½ per cent, according to actual test."—Louisville Courier Journal.

BEST COUGH MEDICINE FOR CHILDREN.

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that not only relieves but cures. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the coughs and colds incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of that disease with perfect success. For sale by all leading druggists.

Study of Protozoan Parasites.

The discoveries of the protozoan parasites of malaria, smallpox, scarlet fever and yellow fever should stimulate pathologists and biologists to a renewed study of other diseases in which the specific causes are unknown. Such study must lead to the further relief of human suffering, for as vaccination produces some slight change which makes the system unsuitable for growth of the smallpox organism or as warfare on the mosquito limits the spread of yellow fever and malaria, so preventive or remedial measures will follow future observations and discoveries, and it is not too utopian to believe that before long some comparatively simple means may be found to prevent or cure diseases like scarlet fever or even cancer.—Gary N. Calkins in Century.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women; regulates bladder troubles in children. If not sold by your druggist it will be sent by mail on receipt of \$1. C's small bottle is two months' treatment and seldom fails to perfect a cure. Dr. E. W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by J. A. Obermeyer, City Drug Store.

READ THIS:

Jacksonville, Ill., Aug. 24, 1901.—For twelve years I have suffered from sweet diabetes and have spent hundreds of dollars with various doctors, with little benefit. I was recommended to try a bottle of Texas Wonder, Hall's Great Discovery, and will cheerfully testify to the public that it did me more good than all things else put together and am altogether another man. I have persuaded many of my friends to try it. JOHN R. DAVEY, Grocer, J. A. OBERMEYER, City Drug Store.

INLAND SHIPPING.

Car Ferries From Milwaukee an Important Factor in Its Growth.

In no other country of the world but this could one speak of the shipping tonnage of an inland city, yet their fleets are one of the surest indications of the growth and prosperity of the cities up and down the shores of the great lakes. Curious fleets they are to hear about, for among their largest vessels is a flotilla of ferryboats. But these are none of the wheezy, low set craft that ply the rivers and harbors of the Atlantic coast, but huge, powerful, modern steamships built of steel, nearly as big as an ocean liner and equipped for ferrying a whole freight train of thirty cars, while a cabin 300 feet long has every up to date accommodation for passengers.

The largest and newest of these ferries are those which cross Lake Michigan from Milwaukee and Manitowish to Ludington, where they connect with the eastern railroads. They were commissioned to give more direct communication than an all rail line can between the great northwest, where so much of the foreign as well as domestic commerce of the United States originates, and the Atlantic seaboard, for Lake Michigan so reaches down from the Canadian line that crossing it by ferry, even when freight and passengers are embarked, cars and all, saves six or seven hours and hundreds of miles of hauling over skirting it by rail. That the advantage the ferry brings to Milwaukee are very great is self evident, for it puts the city, which has already passed every other Lake Michigan port in tonnage, including Chicago, on the direct line across the continent and so assures the growth of its traffic in steadily increasing proportions.

Among lake ports Milwaukee has taken first place, with a shipping tonnage last year of 5,857,063, increased from 4,990,484 in 1902. While the new buildings erected in the Wisconsin metropolis in 1903 were valued at nearly \$9,000,000, the output of its factories for twelve months rose to \$251,810,927. Its Merchants and Manufacturers' association, organized for the furtherance of every good feature of civic life, has seen the municipality develop its schools, its park system and its public works of every kind until now it is admittedly one of the best residence cities in the country as well as the chief port of the fine landlocked seas.

An Ancient Irish Custom.

Mr. Mosher's little Ribulet for April contains "Sea Magic and Running Water," by Flora Macleod. There is a strange power of recording the old superstitions and sadness of the sea in that wandering essay, as many readers know. We quote her account of an ancient Irish custom handed down from pagan days:

"A man and his three sons, on an island which I will speak of only as south and east of the Minch, went secretly on the eve of St. Columba's day a year ago and took a pail of milk from the hyres, and a jug of running water of a wellspring, and a small loaf of bread from the oven, and a red ragot from the fire held in a cleft stick. The youngest son threw the fire into the sea, crying, 'Here's fire for you!' And the other sons poured on the black flood the surf milk and the rain gray water, crying, 'Here's cool water for you!' and 'Here's the kindly milk for you!' And the father threw the loaf of bread on the wave and cried, 'Peace to your hunger!'"

SOUTH SIDE CIRCLE.

Mrs. J. Weir Elliott, Mrs. Herman Weber, Mrs. John C. Goltra and Mrs. A. W. Baldwin were the hostesses Friday afternoon at a meeting of the South Side Circle, held at the home of Mrs. Elliott. The attendance was very large and an interesting meeting was held. The subject, "Special Features of the Louisiana Purchase Exposition," was discussed by Mrs. John C. Goltra, assisted by all the members present.

The next meeting will be held Friday, May 6, at the home of Mrs. John R. Davis.

The following resolution of respect was adopted:

Our cradle is the starting place.
Life is the running of the race.
We reach the goal
When in the mansions of the blest
Death leaves to its eternal rest
The weary soul.

Whereas, through an inscrutable Providence, we, the members of the South Side Circle, are bereft of the presence of our gifted and talented sister, Mrs. M. E. Linn, we seek to express in slight form our sorrow at the loss of one "Whose life, like a dome of many-colored glass, stains the white radiance of eternity."

We each feel the loss of a personal friend, whose sympathizing nature was ever ready to respond to our needs, either in joy or sorrow. And we shall sadly miss the bright thoughts and wit and wisdom which so readily flowed from her richly stored mind.

In all the walks of life her standard was high, and her rule of Christian living was expressed in the fifteenth Psalm, to which she often referred. She coveted a quick transition, fearing the decrepitudes of age, and God, in His mercy, granted this. My soul is ready to depart.

No thought rebels, the obedient heart
Breathes forth no sigh;
The wish on earth to linger still
Were vain, when 'tis God's sovereign will
That we depart.

The victory was hers on Palm Sunday.
Elizabeth King.

John Doe X His Mark

A man's mark is his honor. It stands for him and he stands for it. It's the old Saxon way of signifying good intentions.

The right to be protected in the exclusive use of a trade mark has been long recognized by the common law and enforced by the chancery courts of England and this country.

The Government puts its mark on a bond to give it value.

The National Biscuit Company puts its trade mark in red and white on each end of a package of biscuit, crackers and wafers to distinguish these products and to guarantee the quality, and it does.

MATHEWS & LLOYD.

(By Associated Press.)

Chicago, April 29. Wheat—Influenced by exceedingly favorable weather, wheat opened a little lower, but being out of the way of the market, it was not much affected. The first half hour there was considerable selling by pit traders due to improved weather conditions and unresponsive cables. As a result prices eased off a little, July touching 84 1/2. A greater number of traders, however, were bullish and improved demand soon manifested itself. Much importance was attached to an extremely bullish private crop report, which showed average condition of winter wheat in lower than indicated by April figures. Strength of cash wheat was a material help to speculative trading. Shorts were active buyers of May, advancing the price of the commodity to 88 1/2. In the month (line sold) to 85 1/2. The market held strong until the last half hour, when reaction occurred on profit-taking. Close, however, was firm, July 84 1/2 higher, May 88 1/2 better. Liverpool steady to 1/4 lower. At the seaboard five boat loads were taken. Corn—Fine weather started the market rather easier. Strength in wheat, however, had a counterbalancing effect, the market becoming firmer on moderate demand. A feature of the latter part of the session was heavy selling by a large holder. Under this liquidation all earlier gain was lost, close being barely steady, July 42 1/2, May 46 1/2 lower, Liverpool steady to 1/4 lower. Oats—Sentiment was very bullish on the cash situation and unfavorable crop advice. There was renewed purchases to day by the bull leader and also a good commission house demand. In sympathy with other grains a reaction occurred late in the session and much of the early gain was lost, but the close was firm, July up 1/2, May 1/2 higher.

LIVESTOCK.

Cattle—About 2,500 were received to day, being a good Friday's supply. Most of the offerings were ordinary in quality and price. The market was not very active, but was quite large, but too many cattle have been marketed and heavy steers sold a little lower than last week, the demand being largely for fat cattle of rather light weight. There was a better trade in active and steady, supplies being moderate. Bulls sold freely and there was a good demand for good to prime feeders at \$4.00 to \$4.50, top price showing an advance for the week of a nickel; cows, \$3.50 to \$4.00; Texans, \$3.00 to \$4.00.

Hogs—Extremely large supplies, in connection with smaller eastern shipping demand, caused a weak and declining market. The market was not very active, but was quite large, but too many cattle have been marketed and heavy steers sold a little lower than last week, the demand being largely for fat cattle of rather light weight. There was a better trade in active and steady, supplies being moderate. Bulls sold freely and there was a good demand for good to prime feeders at \$4.00 to \$4.50, top price showing an advance for the week of a nickel; cows, \$3.50 to \$4.00; Texans, \$3.00 to \$4.00.

Sheep—Receipts, 2,000. There was a very strong demand at a further advance. Wool combing from Colorado made a new record by selling up to \$7.00, being the highest price of the season, and an advance of 25c on the top price of last week. To day's meagre supply sold at firm prices, Sheep, \$3.75 to \$4.00; lambs, \$4.25 to \$4.50.

FINANCIAL MARKET.

New York, April 29.—There was little change to day in the tone or character of the stock market, which was one of apathy and irregularity within narrow bounds as the mood of traders changed. The day's news was not favorable to value and the early firmness gave way before the closing. That firmness was due rather to total absence of selling pressure than to any positive support by buying stocks. Reports of railroad earnings at hand to day made a very poor showing, even Reading and Lehigh making poor comparison with last year's corresponding period, which was, however, one of large earnings. Closing quotations:

Money on call easy at 10 1/4 per cent; closing bid 11, offered at 12. Time loans easy and dull; sixty and ninety days at 2 1/2%; six months at 3 1/2%.

Prime paper 3 1/2% to 4%.

Exchange firmer. Demand at 48 1/2 to 49; sixty days at 48 1/2 to 49; Bar silver at 64 1/2.
